EXAMINER'S AMENDMENT

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Eric Nuss on January 3, 2006.
3. The application has been amended as follows:
 - In the TITLE: Delete "and fabrication method thereof" and replace with – having color filters with through holes--;
 - Cancel CLAIMS 10-20;
 - In CLAIM 1:
 - Line 11: Delete "potion" and replace with –portion--;
 - Lines 14-15: Delete lines 14-15 and replace with –color filters on a rear surface of the second transparent substrate, wherein each of the color filters have through holes;--.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance: As the claims were read and interpreted in light of the specification, the prior art of record fails to specifically disclose a transflective LCD having, in particular, color filters on a rear (inner) surface of the second (upper/non-TFT) transparent substrate, where each of the color filters have through holes that positionally corresponds to the column spacers in the reflective portion (as depicted in Figure 3 of Applicant's specification). Although the prior art, namely US 6,215,538 (Narutaki et al.), US 6,310,672 (Koike et al.), and US 6,323,921 (Kurauchi et al.), teaches an LCD having color filter with through holes, none of the reference specifically discloses a *transflective* LCD having color filters on a rear (inner) surface of the second (upper/non-TFT) transparent substrate, where *each* of the color filters have through holes that *corresponds* in position to the column spacers in the reflective portion (as depicted in Figure 3 of Applicant's specification). As a result, allowance is proper.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Y. Wang whose telephone number is 571-272-2304. The examiner can normally be reached on M-F, 8 am - 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
